

Pleasant greetings to all. My name is Nancy Morley and I am running for president of our local CUPE 1334. I am a 33 year employee and was an active member of our local for 25 years as well as an executive member for 16. During my time on the executive, I started as recording secretary, second VP and the VP for three terms. I received a scholarship from CUPE Ontario to attend health and safety facilitator training and became an instructor. I have sat on both the physical resources and local health and safety committee, job evaluation, wellness, return to work and bargaining committee just to mention a few.

My commitment is to try and encourage more members on all shifts to become active members and consider becoming a Union steward with adequate training provided. The upcoming round of bargaining will definitely be a tough one to say the least. I am fully committed to negotiate hard for all of our members. During my 16 years on the executive I was fortunate to have attended every single general membership meeting and often reported back to those who couldn't attend. I'm committed to this position if I'm elected.

Thanks for your time. Give Nancy a chance.
