

Scott Reynolds

“Alone we can do so little; together we can do so much.”

Hellen Keller

My name is Scott Reynolds and I am running for CUPE 1334 President.

As the current acting President I can tell you that I understand the importance of this position. In this unprecedented time, with the Pandemic keeping things from operating ‘normally’, the University is constantly in a state of change. Changing policies, changing Supervisors, changing work hours and many more micro changes that each department is experiencing.

I will be a strong leader who will listen and respond to 1334 members. I have been, and plan on continuing to be, at the union office at 6am every day. This is just one of my strategies for membership engagement. I also plan to be around campus and be visible to our workers. I want to encourage more members to become actively involved, to learn their rights, to know and feel that their union has their back! I want to share knowledge so we can all feel empowered, and we can act as a strong unified front.

I started with the union as a Steward and moved into Deputy and Chief Steward positions. Five different occasions I served on the bargaining committee which helps decide our policies. I participated on the health and safety committees for many years, and I was part of the job evaluation committee for 8 years. I am up to date with all of the new policies that have come into effect since COVID. As the Vice President for the last year, I was able to shadow the previous president which made my transition seamless.

I am here to support and build the strength of CUPE 1334. Please cast your vote for me as President.

Thank you
